## Family/Student Conferences 2022

Conferences this year will take place in several formats, as described below.

**Arena** conferences are offered to all families.

Teachers will be available at stations in the gym for families to engage with at their leisure. These are 5-10 minute conferences.

**Student Led** conferences will take place in the classroom. Teachers will have coached, critiqued, and evaluated their students so they are ready to present to their families. Students will report on academic progress, assessment data when appropriate, share examples of course work and understanding of essential standards, and articulate goals.

**Individual/Group** conferences are by invite only, and feature the student's family meeting with the student's teacher(s). Your student's teachers will reach out to you directly via email/phone if needed.
